

*Certificate of Achievement*

**2008 Supplier Excellence Award**

AT&T Recognizes

**MDSi**

For Outstanding Performance in

**Creative Cost-Management Solutions**

MDSi is being recognized for its Creative Cost-Management Solution efforts. AT&T Mobility has established a strategic partnership with MDSi for logistic services supporting the IT Data Network. Over the last several years MDSi has established themselves by providing high quality and timely services allowing AT&T Mobility to meet aggressive project targets. In support of the iPhone launch, MDSi staged, configured, and delivered ~3,000 networking devices to the various AT&T COR (Company Owned Retail) locations. You quickly identified requirements, developed a fast-track process and aligned the necessary resources to deliver the equipment ahead of schedule. This allowed the AT&T Mobility IT teams to focus on technical challenges related to the product launch. Without MDSi working with us as a strategic partner we would not have met the aggressive target date.
